Provide Brief Description of School's expertise/focus:

The Pathways Schools operate six therapeutic educational programs in Maryland's Anne Arundel, Montgomery and Prince George's counties for students aged 11 through 21 who have emotional and behavioral disabilities. Each school provides a unique, comprehensive, success-oriented alternative day program in a small family-oriented setting of not more than 40 students. Our goal is to enable students with emotional or behavioral disabilities to take responsibility for their lives and to become independent contributing members of our communities and society.

Provide Description of School Staff Expertise:

Pathways Schools staff members include experienced school administrators, Advanced Professionally Certified teachers and licensed and certified social workers. A team of qualified staff members would be available to meet needs of the specific school's request on the identified topics.

Please complete this chart for any type of services your school and staff would be available to provide for the OSSE Special Education Quality Project (timeframe: September-December 2012)
